

SASHI KUMAR

Senior AI Engineer

Kolkata, India • sashisam10@gmail.com

Senior AI Engineer with **7+ years of experience** building scalable web and AI-powered applications. Experienced in developing **RAG-based systems, intelligent chatbots, and AI-driven interfaces** with modern frontend architectures. Skilled in designing **secure authentication systems, reusable UI architectures, and high-performance AI streaming interfaces**.

SKILLS

AI Systems: Generative AI, RAG, LLM Applications, Agentic Workflows

Frontend: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, ShadCN UI

Architecture: Component Architecture, API Architecture, Streaming UI, System Design

Data & State: Redux, React Query, React Table

Security & Auth: Microsoft Authentication (Azure AD), RBAC

Infrastructure: AWS S3, REST APIs, Axios Interceptors

Testing: Unit Testing

PROFESSIONAL EXPERIENCE

Cognizant — Senior AI Engineer

Jan 2025 – Present

Built AI-powered enterprise platforms integrating **LLM applications and RAG-based chat systems**.

- Implemented **AI response streaming with reasoning steps visible in UI**, improving transparency and replacing traditional loading spinners.
- Built **Amazon-style dynamic pagination** for large datasets enabling efficient navigation across thousands of records.
- Developed **infinite scroll architecture for chatbot conversations**, loading historical messages dynamically on scroll.

- Integrated **AWS S3-based document retrieval system** to dynamically fetch and render document links in the UI.
 - Architected scalable frontend systems using **TypeScript and reusable component libraries with ShadCN UI**.
 - Designed **centralized API architecture using Axios interceptors**, standardizing authentication, request handling, and error management.
 - Improved enterprise security by migrating from **backend-managed tokens to Microsoft Azure AD authentication**, enabling **secure token renewal and role/group-based access control (RBAC)**.
 - Implemented **unit testing across modules** to improve application reliability and maintainability.
-

PwC India — Technical Lead

Jul 2021 – Jan 2025

- Built scalable enterprise applications using **React.js, Redux, and React Query**.
 - Implemented **secure authentication using NextAuth** and reusable UI systems with Tailwind CSS.
 - Developed **data-intensive dashboards using React Table** and optimized application performance.
-

Tata Consultancy Services — Systems Engineer

Jul 2017 – Jul 2021

- Developed responsive web applications using **React.js, HTML, CSS, and JavaScript**.
 - Built reusable UI components and ensured **cross-browser compatibility and accessibility compliance**.
-
